

WALTON STOUT PARTS NOW AVAILABLE

New Berlin, WI—Serving the Plastics and Industrial Process Markets, **Spare Parts Express®** has added select Walton Stout parts to its online catalogue. Walton Stout has been designing, manufacturing, and installing equipment for the plastics, process, and food market industries since 1969 and Spare Parts Express is excited to offer their line of high quality, low cost replacement parts.

Spare Parts Express is the only online company that can source all Walton Stout parts by job number, located inside any Walton Stout piece of equipment. With hundreds of Walton Stout common parts available at www.sparepartsexpress.com, you can order what you need quickly and easily. If you don't see what you are looking for call 888-872-7147 or fill out the quote request form. If it's located on your Walton Stout piece of equipment, Spare Parts Express can get it for you!

Serving the Plastics and Industrial Process Markets, the new **Spare Parts Express®** website was created with the focus of providing a single source for quality replacement parts. In addition to the flexible ordering options, customers also have access to thousands of searchable parts for their process heating and cooling, recycling, automation and material handing equipment—all at competitive pricing.

Available to order, and most in-stock with same day shipping:

- Granulator Knives and Screens
- Contactors
- Solenoid Valves
- Seals and Seal Kits
- Temperature Probes and Temperature Glands
- Immersion Heaters and Immersion Pumps
- Motors

Spare Parts Express® offers spare parts from several manufacturing brands and can facilitate special requests to assist the processor in their search for quality replacement parts.

For additional information, please contact Spare Parts Express today at 888-872-7147 or visit us on-line at www.sparepartsexpress.com
